Not sure what you want to do when you leave school?

Keep your options open with VET

It gives you real insight into different careers, and makes you more employable. It can even count towards your degree if you decide to go to Uni.

"I didn't know what I wanted to do til I tried it, then I fell in love with it."

James Schifferle
IT Tutor/Demonstrator and VET graduate

Australian Parents Council Inc

Did you know..?

VET is for everyone.

**There are 7 different VET qualification levels,
100s of different courses, and
1000s of training providers around Australia.**

*Last year 4 million people gained
a VET qualification.*

VET is flexible. You can do an apprenticeship or study as part of your job or independently, while at school, when you leave or as a mature student, whenever it suits you.

VET is nationally recognised and valued by employers, including some of Australia's biggest companies.

If you think VET is just for trades, think again.

*You'll be surprised at the range of careers
- from Aeronautical Engineer to Zookeeper -
available through VET.*

VET graduate starting salaries are comparable to and sometimes higher than Uni graduate starting salaries.

And there's financial help for many VET courses.
