

# The world of work is changing fast

## VET offers flexible training for flexible careers of the future

Today's 15 year olds are likely to have 5 different careers.

“We're going to need to keep reskilling and upskilling throughout our lives and VET is the main way of doing that,” according to Sara Caplan, CEO of PwC's Skills for Australia.

# Did you know..?

**There are 7 different VET qualification levels,  
100s of different courses, and  
1000s of training providers around Australia.**

**Last year 4 million people gained a VET qualification.**

VET is flexible. You can do an apprenticeship or study as part of your job or independently, while at school, when you leave or as a mature student, whenever it suits you.

It can help you start, advance or change your career. VET equips you for 10 of the top 10 jobs set to see the fastest growth in demand in the next few years, such as sales, aged and child care and hospitality.

**VET is nationally recognised and valued by employers,  
including some of Australia's biggest companies.**

**If you think VET is just for trades, think again.**

You'll be surprised by the range of careers - from Aeronautical Engineer to Zookeeper - available through VET.

VET makes you more employable, can help you get into Uni and even get you credits in some degrees, or help you gain work skills after Uni.

VET graduate starting salaries are comparable to and sometimes higher than Uni graduate starting salaries.

There's also financial help for many VET courses.
