Did you know..?

VET is flexible.

You can do an apprenticeship or study as part of your job or independently, while at school, when you leave or as a mature student, whenever it suits you.

VET makes you more employable.

If you think VET is just for trades, think again.

It can help you start, advance or change your career.

VET is nationally recognised and valued by employers, including some of Australia's biggest companies.

You'll be surprised at the range of careers - from **Aeronautical Engineer** to **Zookeeper** - available through VET.

It can help you get into Uni and even get you credits in some degrees, or help you gain work skills after Uni.

VET graduate starting salaries are comparable to and sometimes higher than Uni graduate starting salaries.

And there's financial help for many VET courses.
